### Desktop Publishing and Design, Stratford University

2013 – 2014 | USA
Produce books, magazines, annual reports, design layouts with graphics and typography create publications for printed and cross-media publishing

## PROJECTS

### Recipe Matcher ⌞

2020 – 2020
Created with React, Redux, Databases, CSS, Styled components, Remote Teamwork, and an awesome team!
My classmate and I came up with the idea to create a Recipe website & app that can and will utilize API and user-created recipes to have at the tip of your fingers. We brought on 2 other classmates to help with API and backend and together was able to get the website almost completed, and will be completing the app as soon as the entire website is functional.

### Pokemon API Website ⌞

2020 – 2020
Created with React, CSS, HTML, JS. Created a web page that presents a styled list of characters obtained from Pokemon API.

### Pasta Amore's Website ⌞

Created with HTML, CSS, XML. Was able to stick to a 2-week deadline, by completing this website in 8 days. I was given only the brand style guide.

### Animated Navigation Website ⌞

Created this with HTML, CSS & JavaScript. Was given the deadline of 1 week, and completed in 1 day.
